DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 15-19 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: drawn to how to process data blocks for a plurality of main scanning operations of the recording head which is non-elected species.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 15-19 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

2. Claims 1-8 are allowed.
 - The primary reason for the allowance of claims 1 and 2 is the inclusion of the limitation of a method and an apparatus of ink jet recording for conveying a recording medium onto a platen comprising completing predetermined one-line recording by performing recording except for recording data corresponding to a position of each rib at each of at least two rib rows when a recording operation is performed on a leading end or rear end of the recording medium in the conveying direction. This structure provides the advantage of preventing staining the recording sheet by the

ink. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.

- The primary reason for the allowance of claim 3 is the inclusion of the limitation of an ink jet recording method for conveying a recording medium between a recording head and a platen comprising recording a recording data first region equivalent to a part of recording data of one line by the recording head, recording a recording data second region equivalent to a remaining part of the recording data of one line by the recording head and for the recording data first region, using recording data obtained by masking at least a position of each rib of the rib row on the upstream side of the recording medium conveying direction for the entire recording data of one line and for the recording data second region, using recording data obtained by masking at least a position of each rib of the rib row on the downstream side of the recording medium conveying direction. This structure provides the advantage of preventing staining the recording sheet by the ink. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.
- The primary reason for the allowance of claims 4-8 is the inclusion of the limitation of an apparatus of ink jet recording for conveying a recording medium onto a platen comprising recording operation is performed on a

leading end or rear end of the recording medium which respect to the conveying direction, by positioning the lading end or the rear end of the recording medium on the first row and performing recording medium except for recording data corresponding to a position of each rib at each of the first row then positioning the leading end or the rear end of the recording medium in the conveying direction on the second rib row and performing recording except for recording data corresponding to a position of each rib of the second rib row. It is limitation found in each claims, as it is claimed in the combination, that has not been found, taught, or suggested by the prior art of record which makes these claims allowable over the prior art.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
